# Classic Impressions

## Table of Contents

# Stamp Types

## Pre-Inked Stamps

**MaxLight** pre-inked flash stamps are good for up to 50,000 sharp, crisp, high-quality impressions and features a Lifetime Guarantee against defects in materials and workmanship with proper care. These designs can be customized with your personal information and come in a variety of ink colors.

**Xstampers** use pre-inked, laser cut dies that allow up to 50,000 impressions before re-inking. These stamps are constructed with eco-friendly materials and are backed with a lifetime guarantee.

## Self-Inking Stamps

**ExcelMark** offers a large assortment of self-inking stamps. Models feature a unique, two-sided ink pad that doubles the number of impressions and the useful life of the pad. They are ideal for repetitive stamping and come in a variety of sizes to fit your needs.

**Trodat** self-inking stamps are perfect for general use such as an address, deposit, inspection or everyday message stamps. They feature a translucent base which allows for precise impression placement.

**Shiny** self -inking stamps are a great choice for frequent, precise and reliable use. They are perfect for general day to day use as address, deposit, inspection or everyday messages. Refillable with refill ink or simple pad replacement.

## Traditional Stamps

**Traditional stamps** do not use a pre-inked dye or self-inking mechanism. They require a separate stamp pad for inking the impression dye. Check out the Traditional Stamp section on pages 26-27 for customizable traditional stamps in many different sizes and handle types.

# MaxLight™
## Pre-Inked MaxLight Stamps

The premier pre-inked stamp! Maxlight pre-inked flash stamps are good for up to 50,000 sharp, crisp, high quality impressions and are easily re-inkable for thousands more! Features a **Lifetime Guarantee** against defects in materials and workmanship with proper care and re-inking with MaxLight flash ink.

### Available Ink Colors:

# Xstamper®

Every day millions of people around the world turn to the Xstamper brand of stamps to assist them in their personal and business lives. They know they will be getting a sharp, clear impression. They know that each and every Xstamper is a product of superior technology and quality materials. And, most comforting of all, they know that the Xstamper they hold in their hands comes with a lifetime guarantee.

With its retractable frame, your Xstamper is always clean and eliminates the need for messy stamp pads. And it is sturdy, allowing up to 50,000 impressions without re-inking. Of course, when you must add ink, all it takes is a few drops into the handy, built-in reservoir and you are good to go for the next 50,000. In fact, your Xstamper is so durable you will never have to buy another stamp, which means it is a big money-saver, too.

# Xstamper Industrial Stamps

Xstamper Pre-Inked Industrial stamps use an ink formulation that is fast drying, permanent and water resistant when fully cured. These stamps are ideal for marking any slick or hard to mark surface as metal, glass, leather, glossy paper, etc. Turnaround time is 3-5 work days.

*Due to the sensitive nature of alcohol-based inks, Industrial Stamps are not covered by warranty.*

## Available Ink Colors:

| black | red | blue | green | purple | yellow | white |

White and yellow are opaque inks and will still show on dark surfaces.

*Black is default ink color if none is specified.*

# Xstamper XpeDaters

The XpeDater prints your custom message along with the day, month and year. Changing the date is as simple as twisting the base and turning the dials. XpeDaters use a 6 year band that also includes several phrases: A.M., P.M., REC'D, PAID, FAX'D and ENT'D.

# *Xstamper Re-Inking Instructions*

We strongly recommend using only Xstamper Refill Ink to re-ink your Xstamper pre-inked stamp. It has been specifically formulated to flow cleanly through the micropores of the Xstamper's laser-engraved rubber. Using ink other than Xstamper Refill Ink will clog these micropores and void the Xstamper warranty. Please follow the directions below for your respective Xstamper mount. After re-inking, please allow stamp to sit up to 24 hours to reach maximum saturation.

Remove the handle and place 2-4 drops of ink in the openings on either side of the spring as shown.

Slide the impression cartridge out of the handle and place 2-3 drops of ink in the 4 openings as shown.

# ExcelMark
## Self-Inking Stamps

The most cost effective self-inking stamps on the market! ExcelMark stamps feature a unique, two-sided ink pad that doubles the number of impressions and the useful life of the pad. The clear mount base allows for easy, precise alignment of your stamp impressions. ExcelMark stamps are ideal for repetitive stamping and come in a variety of sizes to fit your needs. See *page 17* for instructions on use.

## Self-Inking Daters

The most cost effective self-inking stamps on the market! ExcelMark stamps feature a unique, two-sided ink pad that doubles the number of impressions and the useful life of the pad. Daters include 7 years of date bands, which also includes Rec'd, Ent'd, Paid, P.M. and A.M. as options in place of year. A band guard also keeps fingers free from ink while changing the date.

# ExcelMark Re-Inking Instructions

**1**
Push stamp down and press the red buttons to lock the stamp in place.

**2**
With the back of the stamp facing you, push the ink pad out.

**3**
Grasp the pad by the edges, turn it over and re-insert to double the number of impressions.

# Shiny® Self-Inking Stamps

Shiny® self-inking stamps are a great choice for frequent, precise and reliable use. The translucent base allows for precise impression placement. Shiny self-inking stamps are perfect for general use as address, deposit, inspection or everyday message stamps. Refillable with refill ink or simple pad replacement.

**Available Ink Colors:**

| black | red | blue | green | purple | brown | pink | orange |
|-------|-----|------|-------|--------|-------|------|--------|

*Black is default ink color if none is specified.*

# Traditional Rubber Stamps

Rubber stamps enable the use of multiple ink colors and are the most cost efficient stamp option. These stamps require cleaning before storage and the use of a separate stamp ink pad at an extra cost.
